

## Summer Reading Excitement!

Summer is here, and it's a great time to read! We have a full summer of activities planned for all ages as part of our summer reading program. Kids, teens, and adults are invited to track their reading over the summer and earn prizes for their efforts. Along with reading, all ages can attend our special summer programs where you might see musicians or jugglers, make crafts, or learn a new skill. Special programs will take place at all library branches. See below for details on each program, and go to [www.tillabook.org](http://www.tillabook.org) for a complete list of special events.

### Kids Summer Reading

Children through age 12 are invited to 'Dig Into' our summer reading program. Kids may sign up beginning June 17<sup>th</sup>. Take home your reading packet and keep track of your reading in 15 minute increments. Being read to by others counts as well! Prizes will be awarded at 4, 8, and 12 hours. Once you've completed 12 hours, you'll get your summer reading t-shirt and in invitation to our end of summer reading party!

### Teen Summer Reading

Our teens will have tons of fun this summer with 'Groundbreaking Reads.' By summers end, teens will earn a t-shirt and book prize for their 20 hours of reading. Teens can get excited about movie nights, after-hours scavenger hunts, and a breakdancing crew! Sign-ups begin on June 13<sup>th</sup>.

### Adult Summer Reading

We've 'Gotcha Covered' at this year's summer reading. After filling out your reading log with eight books, drop it in the box of your choice for a chance to win passes to the fair or gift certificates to local restaurants. In addition, every completed reading log is good for one free book at the Tillamook Library Foundation bookstore.

### Mango Languages

We have a great new database for you to try! Mango Languages will help you learn a new language, whether it's for travel, work, or just for fun. Choose from over 40 languages, and learn at your own pace. The programs use a combination of native speakers, flash cards, and quizzes to help you learn. You can even compare pronunciation if your computer has a microphone. Create an account to track your progress, or click the Start Learning button to skip that step. Find the new database on our databases page at [www.tillabook.org](http://www.tillabook.org).

Highlighting new books worth reading

*How Animals Grieve* by  
 Barbara J. King

Animals are a great part of our lives, yet we still yearn to understand them more completely. This book explores how animals grieve, and raises new questions in this subfield of animal research. Read about elephants, dogs, birds, and even bears who pause to remember when their fellow animals die.
