

Monday Night Movies

Are you searching for a fun and free way to spend a damp fall evening? Come to Monday Night Movies at the Tillamook County Library. Community room doors open at 5:30 p.m. and the movies start promptly at 6 p.m. The movies run for approximately two hours. Popcorn and a cheery atmosphere will be provided.

Since the Golden Age of cinema, Hollywood films have drawn heavily from stories and characters that originally appeared in print. From Bela Lugosi's portrayal of Dracula to Daniel Radcliffe's role as Harry Potter, books continue to play an important part in major motion pictures. Our first series of films for Monday Night Movies will be **Classic Oscar Winners Based on Books**.

Staff's Choice! The Gale Encyclopedia of Medicine

At five hefty volumes, the Gale Encyclopedia of Medicine is not a book anyone will be taking to the beach any time soon. In fact it is hard to imagine an individual reading any of the volumes cover to cover. However, if you need comprehensive coverage of relevant health issues, the Gale Encyclopedia of Medicine should be near the top of your must read list.

Written in clear, understandable terms this encyclopedia covers health issues from Abdominal Ultrasounds to Zoonosis. Each article contains detailed information regarding the definitions, descriptions, causes and symptoms of each disease. They also contain information on treatment options, preventative measures and support organizations.

Whether you are contemplating a trip to the doctor's office or if you have just returned, the Gale Encyclopedia of Medicine is an excellent choice for trusted medical information. You do not even have to leave your home to use this valuable resource. Visit the library's website at www.tillabook.info and look for the encyclopedia in the eShelf & Research section.
